

Paper Chain Song

We are writing a new song using the messages from the paper chains!

We need to make a **chorus**.

A chorus is the catchy bit of the song that repeats a lot.

We can think about:

- What we want other people to know about inclusion
- How inclusion makes us feel
- Why it is important to include people

You can tell me your own ideas if you want to.

We can also use the lines that people chose at both choirs last week to help us.

Please remember to take turns and be patient when we are sharing our ideas.

The lines that were most popular at choir are:

Remember that everyone is different

Our differences make us unique

Share joy, kindness and peace

Donate to charity

Help people find courage

Let them have fun

Motivate and empower others

Sing with people you don't know

To be included is to be whole

Talk slowly and be patient

Learn some Makaton

Be yourself

Love people for who they are

Make sure no-one is lonely

Be kind so people can join in

Create opportunities

Make it happen

I'm an includer
