

## What did we talk about last week?

Last week, we **talked about** the **things kind people can do to make communication better** for everyone.

**People with communication needs** can **find it hard to understand others.**

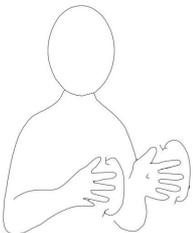

We said that **speaking slowly** and **using signs** can **help people to understand.**

People with **communication needs** can **also find it hard to make others understand what they are saying.**

People with **speech or language difficulties** can **struggle to find the right words, form sentences** and **tell others about something that happened.**

We said that using **signs** can **make people** with **speech and language difficulties easier to understand.**

**People can show their Kind Communication Card** to **ask others to talk in a way that makes communication better.**

See you this evening!
