

What did we talk about last week?

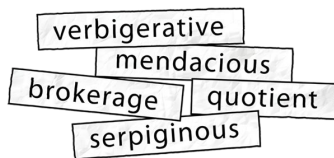

Last week, we **helped** Include to make a **Valentine's** day **Easy Read** quiz.

People had loads of **fun** in the **session** and **spotted** a few **sentences** that were too **difficult** to **read**!

We also **recapped** the **meaning** of **speech** and **language**.

We **said** '**speech**' is the **sounds** we make to **form** **words**.

Language is the **words**, **sentences** and **grammar** of **speech**.

We also **said** that you **can have language without speech**! For example, **people** that use **British Sign Language** have a **language** with words, sentences and grammar but **no speech** sounds!
