

## Creating a healthcare survey to understand experiences of people with a learning disability when seeking help

Researchers at the University of Surrey would like your help. We are making an easy read survey about going to the doctor. Would you like to take part? This is so we can make sure the survey is easy to use for people with a learning disability.

We are looking for members of the public to take part in a 1-to-2-hour long interview. If you are a person with a learning disability, we would love to hear from you!

You do not need experience in research to take part. You will also be given a voucher for your time.
