

Summary of the project

	<p>Who are we?</p> <p>We are researchers from the University of Surrey.</p>
	<p>What is this research about?</p> <p>We are making a healthcare survey to understand how people with a learning disability get help when they need it.</p>
	<p>Why are we doing this research?</p> <p>People with a learning disability often find it hard to get the healthcare they need.</p> <p>This can mean they are more likely to get very sick or die from treatable conditions.</p>
	<p>A survey can help people with a learning disability share their experiences so we can learn how to improve care.</p> <p>We need to make sure the survey is easy to understand and works well for people with a learning disability.</p>

	<p>What will happen in the research?</p> <p>We would like to interview people with a learning disability.</p> <p>In these interviews, we will go through the survey with you, read it out loud, and ask what you think.</p>
	<p>Interview details:</p> <p>The interview will take 1 to 2 hours.</p> <p>You can take part online or in person.</p> <p>You can have someone with you like a family member or support worker.</p> <p>You will be given a voucher for your time.</p>
	<p>Why is this research important?</p> <p>This research will help make healthcare fairer for people with a learning disability.</p> <p>This research will help improve services and projects to help people stay healthy.</p>
	<p>The study has been approved by the ethics committee at the University of Surrey (Ref: 1937).</p>
