

Introducing the Finance and Data Lead

Hi. My name is Claire

I work at include.org.
My job is 'Finance and Data Lead'.

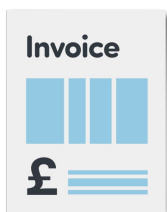

This means that I look after the money at Include.

I also look after our Database - the computer system where we keep the names and information about our members and other people we work with.

You won't see me at the sessions - but I am working hard behind the scenes.

You will hear from me when I send out invoices for membership fees.

You can email me on Claire.Fisker@include.org if you have any questions or worries about your membership fees.
